## My Review Of Auto Affiliate Machine

Auto Affiliate Machine is an easy to use web-based tool. I used it to create the PDF you are currently reading. It also has built in social sharing options so you can get FREE targeted traffic to your review and make money in the process. The only downside to this software is I haven't found a way to edit reviews that I've made and have to re-do them if there is a typo. Other than that it's a fantastic software that should help you make more affiliate commissions. You can use this to make money
